Bridge and Dancing.

Miss Mabelle Clarke entertained some of the young people at bridge and dancing, on Friday evening last, Feb. 21, at the home of her parents, Mr and Mrs J. F. Clarke, on Railway ave., the ladies' first prize going to Miss Esther Wolfe; consolation to Miss Annis Liebert. Gentlemen's first, Gus Barth; consolation, Manley Donaldson.

The guests invited were: Mr and Mrs Durward Moyer, Mr and Mrs Clarence Lory; Misses Myrtle Mountain, Annis Liebert, Esther Wolfe, Lily Comisarow, Eame Mallach, Edith Oatway, Ruth Wight, Marie Clarke; Dr G B Thurston (Edmonton) Messrs George J Bryan, Roy Alton, Gus Barth, Elmer Anderson, Clarence Senger, Lorne Oatway, Bill Comisarow, Manly Donaldson, Giles Clarke.

Concert on Sunday Next

The Male Choir of the Glory Hill Baptist church, under the leadership of Mr J Tolbert, will give a sacred concert on Sunday next, March 2, at 7.30. The choir has kept up a steady practice for the past few months and promises to render pleasing selections in song. Besides vocal selections, there will also be instrumental and literary numbers on the program. The Male Choir has been a blessing to the church of Glory Hill, as well as in other places where the choirsters have sung. No admission will be charged on the evening of the concert, but a hearty invitation is extended to all. The concert will be part in English language and part in the German language. A freewill offering will be taken up for the purpose of supplying music for the choir.

Mr Roland Jeaperson is the efficient manager of the Male Choir.

Get Your License

An Order from the Police Commissioner says owners of motor cars are required to take notice that 1930 licenses must be secured at once. Motorists are advised that the departmental forms sent out some time ago must be filled in and forwarded to the Department for their licenses, as the local garages (contrary to former practise) are not authorised to issue same this season.

Should Apply to Stony, Also

The Edmonton bank managers have decided, following representations from business men, to make a charge of 50c against the account of any customer issuing an N. S. F. check. The charge becomes effective from March 1. It is hoped the charge will go far toward remedying an evil altogether too prevalent at the present time.

"HOT DAY" TEA

'Fresh from the gardens'

The True Spirit

At the first showing at Ottawa of the moving picture record of the great Boy Scout Jamboree, held in England last summer, in which 50,000 boys from all parts of the world participated, His Excellency, the Governor-General, Lord Willington, in an introductory speech, spoke to the Boy Scouts and Girl Guides present "very particularly and in all seriousness," saying:

"You, young as you are, must know, we all know, that since the days of the Great War, all the nations of the world have been striving by conferences, by pacts and agreements, and by personal negotiations to get rid of the terror of future warfare. The League of Nations has during the past ten years done a great and noble service to secure this end. But I am inclined to feel my dear that this younger League of Nations is the most hopeful organization to achieve what we are striving for."

"Under this association you are all growing up filled with the spirit of goodwill and good fellowship to all others, to do your good turn each day to one another, in whatever country your future work may find you, whatever the race and colour of that other may be. I beg of you all to let that spirit guide you in your future lives, for it is by that spirit which teaches us to think well and not ill of our neighbour, that we shall in time attain our great goal, peace among the nations of the world."

These words of His Excellency are most timely because, if there is any one thing calculated to nullify the efforts of statesmen in all countries, destroy the unity of many organizations, and bring to naught the prayers of millions of people, it is the persistent and poisonous propaganda of a few evil-minded persons who see gain for themselves, or temporary advantage for some cause they espouse, through the division of peoples and nations along racial or religious lines, and the cultivation of feelings of suspicion, ill-will, and antagonism among and between them.

It is probably too much to hope that those individuals who are serving their own selfish ends by such unparliamentary conduct at home, and destructive of peace and brotherhood abroad, will cease from their evil ways. They are fully alive to the harm they are doing, but that counts for nothing with them because they are reaping some small and temporary selfish benefit therefrom. But there are bright hopes for the future if the boys and girls of today learn the better way, and the activities of everyday life emulate the life and example of the Great Teacher who went about doing good to all men, who taught men that love is better than hate, who refused to recognize any distinction between men of different races or creeds, but emphasized at all times the common brotherhood of man and Fatherhood of God.

Just as the serpent brought evil and discord into the first Garden of Eden, so do the serpents of today in many disguises seek to keep alive all the ill-will, suspicions, prejudices and passions engendered in the bygone years of a less civilized era in the world's history. These fermentors of strife at home are the first line of defence maintained by those who desire for gain to keep the nations armed to the teeth, and who foment and precipitate wars.

The League of Nations is striving with every means at its control to elay racial suspicions and ill-will. While engaged with practical problems of disarmament, and other concrete causes of strife, the League is devoting possibly even more attention to educational influences. The efforts made to raise the status of women and children in backward countries, to improve labor conditions everywhere, to put an end to white slavery and the traffic in narcotics, all have as their underlying object the removal of causes of friction, misunderstandings, and ill-will among people, and the development of a spirit of world brotherhood. The Balkans have long been recognized as the danger spot of Europe, and the reason is found in racial and religious suspicions and prejudices. Once these can be allayed, peace in Europe will be largely assured.

Lord Willington sees in the Boy Scouts and Girl Guides one of the most hopeful movements for future world peace, while Sir Phillip Gibbs has declared that the Junior Red Cross in banding the youth of all nations under the common banner of service for humanity, offers the most hopeful sign of the dawning of a better day. The Y.M.C.A. is engaged in the same work among young men of all races, colours and creeds.

Evil-minded men stir up strife for a time here and there; they may appear to reap a measure of success; but it is temporary, and when the passion of the moment subsides, and people realize how they have been fooled for an ulterior purpose, it will be found their actual achievements have been nil. Hate may influence people for a time, but love in the long run will conquer. It always has; it always will; for love alone is enduring.

Manitoba Poultry Pool

Thirteen million dozen eggs were marketed in 1929 by the central selling agency of the Manitoba poultry pool, according to a statement at a meeting in Winnipeg. Membership in the pool is 14,000.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude salts when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Interpreters At Geneva

Speeches Have To Be Translated Into English and French

Dr. Caroline MacDonald, of London, Ontario, who has spent many years in Tokio, in social service and prison reform work, last year accompanied the Japanese labor representative to the International Labor Conference in Geneva, as interpreter. This was no easy task, the Eastern and Western languages differing so radically. During the ten days' preparation in Geneva for the great conference, which lasted three weeks, Dr. MacDonald had to translate all speeches from the Japanese to the English, as English and French were official languages to be used, and following the address of the Japanese representative, she mounted the tribune and gave it in English to the non-Japanese speaking section of the audience.

The interpreters at Geneva are the eighth wonder of the world, says Dr. MacDonald. By an ingenious arrangement of telephones in the hall of meeting, interpretation of the speeches into two or more languages follows one sentence after the actual delivery. Telephones went back these, and each member dialed on whatever language they wished to hear.

ARE YOU RUN DOWN AND NERVOUS?

All That Is Needed Is a Tonic To Build Up the Blood

There are thousands of people who really find life a burden. They have no energy, no vitality, no zest, and a general run-down feeling so long that they have given up hope of again enjoying perfect health. Rest and a blood-building tonic are all that is required to restore health and vitality. Naturally at first, says Dr. Williams' Pink Pills. They are recognized the world over as a wonder-builder blood-circulation and nerve restorer.

Mrs. F. C. Granier, Toronto, Ont., bears testimony to the worth of these pills. She says: "Five years ago, after a life of perfect health, I became ill. I was nervous at first, with no appetite, no sleep, and I gradually grew worse. I became pale and listless; my arms and feet were badly swollen and although I doctored all winter my condition did not improve. In the spring I went to see a specialist and he sent me to the hospital where I remained for seven weeks. I left the hospital in worse condition than when I entered it and went home a nervous wreck. I remained ill at home all summer and entered the hospital again in the fall where I was under observation for three weeks and although every thing possible was done for me I did not improve. Shortly after this a friend advised me to take Dr. Williams' Pink Pills as a blood builder so I sent for a supply. I do not know when I first noticed an improvement in my condition. It seemed to come to me gradually. I began to sleep better; my meals so long distasteful were being eagerly awaited and enjoyed. I began to show an interest in what was going on around me. The color came back to my face and strength to my limbs. I persisted in the use of the pills and soon I was well and happy again. That is five years ago and ever since I have been able to do all my household work and have not had the least return of my former trouble."

If you are feeling run down get Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get them from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Odd Use For Eggs

You might not know it, but the same eggs you use for cooking are used for tanning gloves, and this industry is the cause of importing more than 800,000 eggs a year into England. Only the yolk of the egg is used in the tanning process.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions, will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

A Dog's Paradise

Not a single flea exists in the South African town of Prieska. Scientists working on a plague prevention survey of Africa, conducted wide searches for the elusive insect but at Prieska none were found. It is on the Karoo prairie. Prieska is now boasting itself as the "plague-proof" town, and dogs of all nations look upon it as paradise.

An Ailing CHILD

Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

Life Saved By Hymn

British Soldier Suspected Of Being a Spy, Had Narrow Escape

How a British soldier escaped death as a suspected spy at the hands of the French by singing a hymn, was related to the Chapel-en-le-Prith (Derbyshire) Board of Guardians.

The man Joseph G. Davidson, who had sought relief during a recent indisposition, served with the Expeditionary Force in France during his war. He was taken prisoner, and after spending 2½ years at various camps in Germany escaped into the French lines. Here inquiries were made about Davidson, and information was received from the British G. H. Q. that the man had been killed in action.

The French promptly ordered him to be shot as a spy, but a few hours before the firing party was ordered out, a wounded British soldier asked Davidson if he could sing. He sang "Abide With Me," and this so impressed his captors, that they made further inquiries, and eventually released Davidson.

Minard's—50 Year Record Of Success.

The Greatest Mystery

According to a western newspaper, the sweet mystery of life is love, but according to a widely held idea the great mystery of life is how so many people manage to live up to a Rolls-Royce standard on a flivver income.—Boston Transcript.

An Unusual Picture

Sunset On Moon Taken With Motion Picture Camera

Motion pictures showing sunset on the moon was one of the features of the annual exhibit of the Carnegie Institution, of Washington. The film was made at the Mt. Wilson Observatory, in California, with a motion picture camera attached to the great 100-inch reflecting telescope. Like the earth, the moon rotates, thus causing the sun to rise, cross the sky and set, but as the moon takes twenty-seven and one-third days, instead of twenty-four hours to rotate, lunar sunrise and sunset are more leisurely than the earthly variety. Because there is no atmosphere on the moon, there is no twilight, and the sunset represents a sharp change from brilliant sunlight to darkness, instead of the gradual diminution of light on the earth. The film shows the shadows of the lunar mountains crawling across the surface. The actual times occupied in the taking of the film was five and one-half hours, but it is speeded up in projection, and runs through in a minute and a half.

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

Steward (to sea-sick passenger): "Feel like a cup of tea, sir?"

Passenger: "Do I look like a cup of tea you idiot?"

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Western Canada's Seaport Will Be Scene Of Great Activity During The Coming Summer

When Churchill, on Hudson Bay, Canada's newest seaport is opened sometime in the summer of this year, it will be the scene of an interesting social experiment. The land within the limits of the townsite will not be sold but will be leased by the Manitoba Government, under whose administration the townsite comes.

Since Churchill was chosen in 1917, as the seaboard terminal of the Hudson Bay Railway, it has been a great camp, with hundreds of workers engaged in harbour and railway construction in the summer and a small staff in charge of the plant in winter. But, as the chief depot of the new trans-Atlantic route by way of Hudson Bay, it is expected to be at once a centre of important interests, such as transportation, mining, grain handling and fishery. The harbour improvements that have been planned cannot be finished earlier than 1932, and the presence of the army of workmen engaged in this development will give the new town a favourable start. Rail connection is now completed over the whole stretch of 511 miles from The Pas to Churchill. Regular trains run over a part of the line, but winter connection is not maintained at present to the Bay. The entire line will, it is expected, be in regular operation in the spring of 1931.

Though the future of Churchill is regarded very favourably by many, the inflation which has attended such settlement in the case of other prospective railway centres has been wholly prevented by the refusal of the Manitoba Government so far to give rights in lands of the townsite. The provincial government of Manitoba, availing itself of facilities afforded by Dominion authority, has prepared plans for the development of several towns of the north, including Churchill. It is expected that Churchill will be open to newcomers early next summer. The effects of planning and of the new system of landholding will then be seen.

The Hudson Bay Railway has been built by the Canadian Government and will be operated by the Canadian National Railways.

Cheapest Form Of Selling

Newspaper Ads Pay Best And Bring Quick Returns

"I know of no other method at once so quickly productive of results as advertisements in the Press," said Sir Charles Higham, at the Institute of the Motor Trade dinner, in London. The cheapest and most effective way by which the local dealer, or anyone else, could advertise, was in the Press. They all knew, he said, that unemployment could only be solved by selling more goods.

"The public event," Sir Charles added, "know that newspapers do not accept advertising for unreliable goods or services, and that they can buy the goods advertised with the confidence that they are worth what is asked for them, and that they are guaranteed. Such is the power of Press advertising today, that it has become the cheapest form of selling."

Alberta Savings Certificates

The sale of Alberta Government savings certificates in 1929 reached a total of \$9,856,466, and represented, with the one exception of the year 1926, the largest annual amount so invested. Savings now outstanding amount to \$11,715,493, and purchases made since 1917 total \$44,575,978.

"Daddy, I have swallowed the apple I was saving for mother."
"Heavens! Does it hurt?"
"Oh, no. I chewed it first!"—Lull-tige Blatter, Berlin.

Have Taken To Air

People Of North Country Substituting Planes For Dog Teams

Practically all other means of travel in Mackenzie River district have now been superseded by the airplane, according to H. C. Ingram, inspector of civil aviation, who has just returned from an inspection trip over the airlines running to Aklavik, Yukon territory.

Mr. Ingram declared he was unable to travel the full route owing to the fact that he was delayed by fog. He went as far as Fort Resolution, 750 miles north of McMurray, returning with "Punch" Dickens of the Western Canada Airways. He reported the people of that part of the country to be fully air-minded. He observed only two dog teams along the northern route.

(By Annebelle Worthington)

3015

* Chic dressmaker details are smartly evident in this sapphire blue crepe silk with bolero suggestion at the right side of the front.

The flat hips with soft swathed treatment at front, emphasizes the higher waistline, so important in the mode. The irregular closing of collarless neckline is unusually becoming.

The circular tiers provide charming fluttering fullness that sways gracefully when wearer moves. It proves that good taste is not expensive, for here is a Paris model that you can copy exactly at the cost of the fabric, and have the added advantage of choosing a flattering colour.

Design No. 3015 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It is exquisite in crepe Elizabeth in dahlia purple shade for afternoons and Sunday evenings.

Black crepe silk is dignified for all-day occasions.

Tomato red crepe is decidedly youthful.

Pattern Price 25 cents. Be sure to fill in size of pattern.

SEED CLEANING CARS

A special train—a University on Wheels—has been equipped by the Canadian Pacific Railway to enable the farmers of Saskatchewan to avail themselves of the opportunity of receiving the latest information on seed cleaning and seeding machinery used in connection therewith. This lecture train will be in charge of officials of the Field Crops Branch, of the Saskatchewan Department of Agriculture and will travel over Canadian Pacific lines.

Manitoba Buttermakers

Carried Off Dominion Butter Championship At Ontario Convention
Manitoba buttermakers, at the recent convention of the Western Ontario Dairywomen's Association, in London, Ontario, carried off the Association's trophy, emblematic of the Dominion's butter championship, according to Frank Horne, secretary of the Association. It is the first time in the Association's seven years of operation that the trophy has been taken out of Ontario—in this instance to go to the Manitoba Co-operative Dairy, of Brandon. Yeast and mould scores were taken into account and a chemical analysis made at Ottawa. This caused a delay in announcing the winner.

Well Served With Railways

Sumas, Wash., a town of less than 200 inhabitants, on the Canadian border south of Vancouver, B.C., lays claim to being the smallest town on four transcontinental railways. Not only that, but Sumas is the terminus for three of these railways which include the Chicago, Milwaukee, St. Paul & Pacific, the Northern Pacific, the Great Northern and the Canadian Pacific. In addition, the town is a terminus for the British Columbia Electric.

While it costs \$40 a week to feed a sea lion at the London Zoo, a jungle lion receives 16 cents worth of cat's meat a day.

Complete \$50,000,000 Viaduct

Plans made a quarter of a century ago bore fruit in Toronto recently, when Canadian Pacific Railway train No. 3100 pulled a long line of passenger cars over the embankment and brought them in to track three platform on the high level line of the Union Station. His Honor Mayor Bert S. Wemp was on board the giant C.P.R. engine and received his first suggestion by driving from Engineer T. Lloyd U. E. Gillen, general manager of the Toronto Terminal Railway Company, told His Honor that all trains would be operated on the six high level tracks by April 15, and that work on six other tracks would be commenced at once and would be completed by the end of 1930.

National Museum At Ottawa a Treasure House of Wealth and Monument of Canadian Progress

Dr. Charles Camsell, L.L.D., F.R.C.S., Deputy Minister, Department of Mines, Ottawa, addressing the Professional Civil Servants of Canada and their friends in Ottawa recently, said in part:

I would like you, for a few minutes, to share with me a vision that has gripped the minds of some of us during the last few years. Looking ahead forty or fifty years, we see Canada, the home of a strong and prosperous people with twice or thrice the population it possesses today. Montreal, Toronto, Winnipeg and Vancouver, are great centres of world commerce, known to every school child in Europe as well as in America. Ottawa remains the political heart of Canada, a city unequalled on this continent for the beauty of its surroundings and the dignity of its public buildings. It is the pride of Canada, and the admiration of all America, a capital city worthy of the prosperity and progressive nation that holds a leading place among the nations of the world.

Here within this city of Ottawa, the capital of Canada, we see, amid other structures, a large and splendid building containing inside its walls a picture in miniature of the country's wealth and natural resources. We see a National Museum of Canada, a museum that houses samples of every rock and mineral, every animal, bird and fish, every seed and plant, and every variety of timber, that can be found on Canadian soil, or in Canadian waters, from Nova Scotia to British Columbia, and from the International Boundary to the Arctic Islands; a sample of every object that has its home within our territory and contributes to its prosperity and beauty. This National Museum is a treasure-house of our national wealth, a monument of our national achievements, and an educational and research institution that proclaims our natural resources and investigates some of our national problems. Everything that early explorers set their eyes upon is represented there—Indians clad in furs and armed with war-clubs or with bows and arrows; the buffalo, the beaver and the various bears; rare flowers from the Rocky Mountains, fine timbers from the British Columbia coast, and nuggets of gold and silver from the different provinces and mines. Here, too, is every natural object that concerns the farmer; types of soil and their special qualities, different varieties of wheat and methods of combating their diseases, all the fruits and vegetables and the ways of controlling their insect pests. The prospector, the miner and the geologist find in this museum every rock and ore that exists in the Dominion, with illustrations of their uses and samples of all the products we derive from them. The fisherman sees specimens of every fish, the methods of capturing them and of preparing them for the

market. The lumberman sees his timber in every stage of growth, and learns how to fight the beetles that ravage his standing trees. It is a great museum illustrating the natural history of the whole of Canada, a museum that ranks beside the similar museums in New York and Washington, in London, Paris, Berlin and the capital cities of all the greatest countries in Europe and America.

Yet it is not a dead museum, full of dry bones, stuffed animals and rocks covered with the dust of time, but by passing motor-cars. Everything within its walls is both attractive and instructive. The children who crowd its doors from mere curiosity learn something unconsciously, the tired business man goes away refreshed and informed, the critical foreigner receives new impressions of the greatness of Canada and its natural wealth. There is a special staff to answer enquiries, to deliver addresses on Canadian resources, and to send out information to every part of the country. Manufacturers visit or write to the museum for ideas that they can use in their business; industrialists to find out our resources in coal, oil and towns obtain help in building up local museums in all the provinces; and schools from Halifax and Quebec to Vancouver borrow motion pictures that teach our children the geography of Canada, its plants and animals, its mines and its water-powers. Then there is a research staff that studies the history and the problems of the country, that co-operates with other government departments and with universities and museums throughout the world, and that increases the fame of Canada as a home of science and learning.

This is our vision, and already the Dominion Government has taken the first steps towards its realization. It has established in Ottawa, the foundations of a National Museum, given it a building large enough for the next few years, equipped it with a small but active staff, and allotted a small sum of money each year for its maintenance. The advancement of this institution, the expansion of it into a great museum portraying the resources of the entire country and the achievements of its people, this it lays squarely on the shoulders of every citizen, from the leaders in the financial and commercial world to the laborer on the farm and the workman in the mill. For a National Museum belongs to the entire country, and, like the great museums in London, and Paris, registers the progress and civilization of that country in the eyes of other nations. So I would ask you to share our vision, and to join with us in striving to make it a reality, in building up in Ottawa, the Capital of the Dominion, a National Museum worthy of Canada's rank among the nations.

Federal Farm Loan Board

Since the inception of the Federal Farm Loan Board, 1,464 loans have been approved, totalling \$3,026,050, or an average of \$2,067. Of the provinces participating, British Columbia farmers borrowed \$697,900; Alberta, \$1,545,100; Manitoba, \$48,800; Quebec, \$218,100; New Brunswick, \$396,500; Nova Scotia, \$121,600.

"Won't you walk as far as the street car with me, Tommy?"
"I can't."
"Why not?"

"'Cause we're going to have supper as soon as you go."

Actor (telephoning friends): "I ordered twelve laurel wreaths for my first night and you sent only ten. The public will think my popularity is waning!"—Kerckdore, Oslo.

WHEAT POOL TO BE ESTABLISHED IN AUSTRALIA

Canberra, Aus.—A great wheat pool will be established in Australia. There is some difference as to whether it will be a Government-controlled body, or under the direction of the wheat growers themselves. But there is little doubt that a Commonwealth wheat marketing body will be in operation in a comparatively short time.

A great conference between the Commonwealth and State governments, and the Wheat Growers' Association, decided on the Pool. The Federal Government wants it to be under government control, with a state board in each state operating under a commonwealth board at Canberra, on which the state boards would be represented. The wheat growers want it to be under control of the farmers.

The real difference, however, centres around the government guarantee of a stabilized price for the farmer. The government offered to guarantee 96 cents a bushel for wheat delivered at country sidings, the equivalent of \$1.08 a bushel f.o.b., for one year only. The wheat growers asked that this guarantee be extended to cover three years. Hon. Parker Macleay, Federal Minister of Markets, said the government could not agree to extending this guarantee until it was seen the scheme for an Australia-wide wheat pool was in operation.

But when the pool is established and is working satisfactorily, the government will favorably consider the suggestion of extending the guarantee of price, the minister promised.

Record Entry For Manitoba Winter Fair

Officials Are Looking For Additional Stabling Accommodations

Brandon, Man.—Another record making entry has caused the officials of the Manitoba Winter Fair to look around for additional stabling accommodations. A year ago every available inch of space was used in the Arena buildings to take care of the livestock entries, and some departments were cramped even after some of the stock had been taken care of in outside barns.

It is expected that the Hon. T. A. Crerar will open the show. If the new Minister of Railways, and member for Brandon, can leave Ottawa even for a short time in March, he will probably attend the opening of the exhibition.

Would Give Power To States

Association Is Against Prohibition Amendment, Demands Its Repeal

Washington, D.C.—Outright repeal of the Eighteenth Amendment and a transfer to the states of the power to regulate intoxicating liquors was demanded by witnesses before the house judiciary committee which after a recess of several days has returned to the hearing of testimony for a change in the dry laws.

William H. Stetson, chairman of the board of directors of the Association Against the Prohibition Amendment, asserted people throughout the United States had lost respect for the government because of the prohibition law, and because it had lost its efficiency.

Worried By Dogs

The Pas.—Mongrel huskies, roaming the streets of The Pas during the winter season, are alarming citizens of the northern town. Their latest attack involved the mauling of William Hinchuk, 10, in front of St. Anthony's hospital. A passing priest saved the lad from serious injury. Three other cases of canine onslaught have been reported by hospital authorities.

Returning To England

Ottawa, Ont.—Capt. R. T. W. Flenes aid-de-camp to His Excellency, the Governor-General, has left Ottawa for England to take up the appointment of adjutant to his regiment, the Royal Scots Greys. Capt. R. N. Brinkman, Grenadier Guards, has been appointed to take Captain Flenes's place on His Excellency's staff, and will arrive in Ottawa next month.

W. N. U. 1826

Drive Against Orientals

White Canada Association Asks B.C. Government For Campaign Fund

Victoria, B.C.—The British Columbia Government was asked to ascertain the practicability of the removal from the country of all Asiatics and expatriation of all property owned by them upon payment of compensation.

In arguments presented before the agricultural committee of the legislature, it was stated that the elimination of the Oriental from British Columbia was the most pressing matter before the people today, and that the situation was grounds for a grant of \$5,000 to the White Canada Association for a campaign fund to carry on an agitation for revision of British treaties which now bar restrictive local legislation.

The matter was brought before the committee of the advisory board of the Farmers' Federation, and was spoken to at length by A. B. Smith, of Cranbrook, secretary of the advisory board; C. E. Hope, of the White Canada Association, and J. P. Hampton Bole, grand factor of the Native Sons of British Columbia.

It was declared that the whites could compete with the Chinese but that the Japanese were another matter. Severage of competition caused the whites to drop out of an industry. It was declared by Mr. Smith, he said, however, that there was no lessening of output, but an actual increase as Orientals took up slack production.

"To them, it is a profitable business," he said. "They have less overhead, work longer hours, and are willing to work the whole family."

Mr. Hope asked the province to persist in re-enacting disallowed legislation until some action was attained. He advised placing pressure on Ottawa towards attaining a redrafting of treaty arrangements. Such redrafts would be acceptable to Japan, he believed, if they were on a basis of exact mutuality.

Will Request Change In Banking System

Western Members Of Federal House Have New Plan

Ottawa, Ont.—Western members of parliament, gathered in the capital for the opening of the session, are keen to get on with public business and in many cases will endeavour to get parliamentary approval of important reforms.

Perhaps the most coherent objection among western members is to bring about a change in the banking system, whereby a federal bank of discount would be set up and the present discount activities of the treasury board much curtailed, if not discontinued altogether.

The Alberta members are particularly desirous of getting action along these lines. It is held that the general credit situation and the gold position in recent months has proved the inefficiency of the present banking system and the need of a change.

Will Use King's Cutter

Famous Racer Britannia To Test Speed Of Lipton's Challenger

Portsmouth, Eng.—King George's famous racing cutter "Britannia," will be specially commissioned to sail against Sir Thomas Lipton's new challenger for the America's Cup—the Shamrock V.—in the Solent. The date for the trials has not been set but probably will be arranged so His Majesty may attend. The Britannia is one of the fastest boats in the English waters.

Registered Mail Stolen

London, England.—A hundred registered letters, mostly containing money orders and bills in dollar currency, were stolen from a postal bag which left Montreal on February 9, aboard the "Doric," and was sent by train from Queenstown to Belfast via Dublin. The theft was discovered at Belfast. The seals of the letters were found to be broken, but the bag had been re-tied.

Bare Women From Law

Quebec, Que.—The bill designed to amend the statutes so that women might be admitted to the practice of law in the province of Quebec, was defeated in the legislative assembly by a vote of 37 to 29.

WINS GOLD MEDAL

John Johnson, chief superintendent engineer of Canadian Pacific Steamships whose paper "The Propulsion of ships by modern steam machinery" has been awarded the gold medal for 1929 by the Council of the Institution of Naval Architects.

Discuss Peace River Outlet

Private Company Asks Alberta Government For Permission To Build Line

Edmonton.—If the Canadian National or Canadian Pacific Railway companies jointly or individually, will undertake to build a new northern line giving the much desired Peace River outlet to the coast, information to that effect will be appreciated by the legislature; otherwise there is a fairly good chance of a charter being granted to the Beaver Lodge Narrows River Railway Company, which is asking permission to construct a line through the Gray Pass, it was revealed here. The bill to incorporate the company was before the railways committee of the house, and given a thorough discussion, the outcome being that C.N.R. and C.P.R. officials are to be asked to attend at a future sitting of the committee and state what objections, if any, and what intentions, if any, of both of the transcontinental roads may have, in the matter.

Royal Wedding Postponed

Rumanian Princess May Break Engagement To German Count

Bucharest.—Postponement of the wedding of Princess Elena of Rumania, and Count Alexander von Hohenberg, is the only official answer in Rumania to reports that their engagement, which the princess herself announced some weeks ago, had been broken off definitely.

Premier Maniu said the government was investigating the antecedents of Count von Hohenberg, in Germany, and was seeking further information about him. If the Rumanian Government found anything reflecting dishonor upon the count, it would intervene and advise against the maintenance of the engagement.

JEWEL VALIQUETT AND ROBERT CLIFFE WITH THEIR PET HUSKY

Here is shown Jewel Valiquett and Robert Cliffe, with their pet husky dog, as they appeared at the first international winter carnival at Ottawa.

Applying For Charter

High Speed Road Bill Is Again Before Alberta House

Edmonton, Alberta.—Supported by an influential petition containing the names of over 3,000 residents of southern and central Alberta, the bill for a charter incorporating Alberta Trackways, Limited, comes before the Alberta legislature this session for the third time, sponsored this year by Donald Cameron, U.F.A., Innisfail.

The bill provides for the incorporation of a company which undertakes to lay concrete highways of not less than 18 feet in width, from Edmonton to Calgary, from Calgary to Banff, and from Calgary to Macleod, Lethbridge and Coultas.

Construction of the trackways is to be commenced within two years, and completed within five years of the securing of the charter.

The idea back of the plan is for a system of safe, speedy, all-weather highways, constructed of concrete between the points indicated, which would enable auto drivers wishing to make the best possible time between these points, to travel on the trackways instead of on the slower and more tortuous provincial highways.

A small toll would be charged each car for the privilege of driving over such trackway and, according to the promoters, such toll would more than be offset the saving in gasoline, wear and tear on car and tires, saving of time, etc.

The promoters are D. F. Whitney and W. D. Milner, of Calgary, and J. W. McDonald, of Macleod, and ample financial backing is available in case the legislature this year sees fit to grant the application, the promoters state.

Wins New Honors

Coast Astronomer Awarded Medal For Distinguished Work

Victoria.—Dr. J. Plaskett, director of the Dominion astrophysical observatory, has received word that he has been awarded the Rumford medal given by the American academy of arts and science for distinguished work in astronomy.

The last recipient of this honor was Professor Arthur Compton, of Princeton, winner this year of the Nobel prize.

The Rumford medal will be presented to Dr. Plaskett at Boston, on April 9, when he is en route to England to address the Royal Astronomical Society and receive his gold medal, recently awarded him for his remarkable studies in stellar movements and the scientific conclusions which have been made possible by his labors.

Granted Incorporation

Winnipeg.—The Scandinavian Colonization Association, an organization which will aid and assist in bringing immigrants to Canada from Norway, Denmark, and Sweden, has been formed, under the presidency of H. P. A. Harnamann, Winnipeg. Headquarters of the association, recently granted incorporation by the Dominion Government, will be in Winnipeg.

CONFERENCE TO MEET IN LONDON SEPTEMBER 30

London, England.—Prime Minister MacDonald told the House of Commons that the next meeting of the Imperial Conference will be held in London this autumn. The date for the opening meeting was fixed for September 30.

Ottawa.—Particular interest attaches to the announcement from London that the Imperial Conference will be held this autumn, in view of election possibilities. It has been rumored on a number of occasions that the Canadian Government would go to the country this fall, but announcement of the conference casts doubt upon such forecasts.

It is understood here that not only will there be an Imperial Conference, but that an Imperial Economic Conference will take place at the same time. The presence of the Prime Minister will be essential in London.

Consequently, if an election is to take place this year, it must be before the opening date of the conference, or after the conference is over. The latter would mean a pretty late election date.

There is no indication at present of what particular subjects Canada will desire to take up at the conference. The Dominion have to say much consideration and discussion between now and October. With parliament in session, the Prime Minister will have an opportunity to hear what members from different parts of the Dominion have to say on matters of Empire interest before he departs for London.

Britain's New Auto Laws

One Provision Is To Increase Penalties For Dangerous Driving

London, England.—Miss 1930, through her modern learnings, will find no difficulty in complying with the order compelling motor cycle pillion passengers to ride astride, which is one of the provisions of the road of the transport bill, on which second reading was moved in the House of Commons by Herbert Morrison, the Minister of Transport.

Other provisions of the bill abolish the speed limit for light motor cars, increase the penalties for dangerous driving, fix 16 years as the minimum age of ordinary automobile drivers and at 21 as the age of those driving public service vehicles; lay down a maximum number of working hours for drivers of heavy vehicles and enforce compulsory third-party insurance.

Will Cost Half Million

Manitoba To Extend Highway To Ontario Border

Winnipeg.—Manitoba's road link, which will meet the trans-Canada highway expansion at the Ontario border, will cost the province \$528,197, Hon. W. R. Chubb, Minister of Public Works, told the legislature. The road, construction of which will start in the spring, starts from the Whitemouth River, near the village of Whitemouth, and will follow the general direction of the Canadian Pacific Railway tracks to the Ontario border.

Mistakes Poison For Water

Young Chemist Dies Few Minutes After Drinking Fluid

Vancouver.—Hugh Chester Bell, youthful chemist, mistook a glass of poison for water in his office here, drank it down and died, a few minutes later. An emetic administered by one of Bell's co-workers whom the stricken man called to his aid, failed to take effect and he died before a doctor could reach him. The deceased, an Oxford University graduate, had arrived in Vancouver only 18 months ago from England. He is survived by his wife and one child.

Mail Plane Destroyed

Saint John, N.B.—A Canadian Airways mail plane en route here from Moncton on the way to Montreal, was forced down on the Kennebecasis River ice, took fire and was destroyed. The mail was saved. The pilot and mechanic escaped injury.

AND HERE IT IS!!

CHAPTER III.—Continued.

"I thought the room over the kitchen would be easier to get to."

"The ideal," snapped Grandma.

"That's where I used to put my hired girl!"

"And it's the most comfortable bedroom in the house," retorted Charman.

"I'd have taken it myself long ago, if I hadn't wanted to be nearer to you. But let's not worry over that question. He can decide it himself when the doctor brings him in on Saturday. Perhaps after his inspection he'll have none of us."

"Well, well," Grandma repeated, "it'll be a great change. I don't know as I like the idea—hardly. He may be fussy, and want milk in his tea instead of cream, like Deacon Purdie."

"Let's hope he does," laughed Charman as she moved away. "It'll be that much cheaper feeding him."

"Fush!" reproved the old lady. "Would you begrudge the poor man a dash of cream?"

It was a sunny Saturday when the doctor's dust car stopped before the old Davis house. Grandma, peering from the window as usual, drew a breath of relief as she viewed the stranger who stood beside Doctor Howe, and was, evidently, admiring the carved pineapple above the door.

Yes, he was young, she decided, but not too young. He was past the age when he would thoughtlessly track dirt into the house (if a man ever is past that age), and he wasn't enough to be set in his ways—not thirty surely. He probably wouldn't notice whether his tea contained milk or cream; and he had fine, straight legs. Grandma had once been wooed by a youth who was slightly knock-kneed, and as she told Charman, after sixty years the remembrance still made her shiver.

"The Davises were all tall and straight," she continued. "That's one reason I took to your grandpa. There wasn't a knock-knee or a bow-leg in the family. They walked like soldiers."

"And he does, too," mused the old lady, as she watched the newcomer move toward the house. Then the doctor

looked up and waved to her, and in another moment was in the doorway.

"Well, Grandma," he began cheerfully, "this is John Carter. You see I kept my word and brought him in for you and Charman to inspect. This is Grandma Davis, Doctor—Grandma to the whole town, and keeper of the village watchtower. We couldn't get along without her."

Grandma looked up and smiled, her eyes bright as a bird's, meeting those of the young man as he took her hand and bent above it in a deferential manner of a bygone day.

She was thinking: "Somebody taught him his manners, anyway, and respect for age." She said, motioning her guests to be seated, "I supposed it was the other way round, and you were to inspect us. That's how Charman put it. She's been cleaning the house from top to bottom, as if she thought you'd inspect the ice box and the attic," she added with a twinkle. "Charman's my grand-daughter, as the doctor's most likely told you. She'll be here in a minute. She just ran over to Lizzie Baker's with a half a cup of cornmeal. I forgot to order, as usual, and wanted to make an Indian pudding for her supper. Seems as if Indian pudding would set sort of heavy on the stomach each night, doesn't it?—but the Bakers can digest nails or horseshoes, as my father used to say; and you'll find it true, young man, if ever you're called there—not that you will be, though, while our doctor has a leg to stand on."

"Fush!" laughed the old man. "Would you discourage him at the very start?"

"I'm only warning him," said Grandma. "Wickfield folks are set in their ways, and you're one of 'em, Edward, if I do say it to your face. Maybe you'll think it's disrespectful, my calling the doctor by his first name," she added to the younger man, "but we grew up together here in Wickfield, and I'm not much older than he is, though he's caught the habit of saying Grandma like the rest of them. Here's Charman now. She's seen the automobile and is hurrying. That blue gingham sets pretty on her, doesn't it? She made it herself. Come in, dearie. Here's the doctor and his young man."

Yes, the blue gingham certainly "set pretty on her." This was the prospective boarder's thought as he arose, feasting his eyes on the vision in the doorway. The old doctor was feasting his, as well, and Grandma Davis might have been said to do the same. For Charman made an astonishingly pretty picture, her cheeks flushed from hurrying, her blue eyes shining, a bit of not unnatural embarrassment making her pause a moment before coming forward.

"Charman," said the doctor, putting a fatherly arm across her shoulders to draw her nearer, "this is the boy who's promised to help me out if you'll find him a place to live. I knew his father and his grandfather before him, and will vouch for the fact that he won't run off with the Davis candlesticks!"

Charman laughed as she stretched out a friendly hand which the young doctor took, and forgot to return till the girl drew it away. She said, a smile bringing out the dimples of which her mother had been so proud: "He might not think them worth the bother! They're brass, not silver, Doctor Carter. Would you like to go up now and see the rooms? The east room is larger; but the one in the ell looks toward the river and is very cozy."

"I really needn't look at anything," replied the young man impulsively. "I'll sleep in the attic, if only you'll take me in."

"Well," chuckled Grandma, "the attic's clean, anyway! I told you she'd cleaned everything. You take him up attic, dearie, and show him how pretty it is from the south window. There's a nice view in all Wickfield. But I don't think, young man, that the room over the kitchen is good enough for a—a guest. However, you can take your choice; and as Charman says, it's easy to heat come winter."

As the young people left the room, the old doctor drew his chair closer to Grandma's.

"Well?" he questioned. "How does the boy strike you, Polly?"

"Dear me," sighed Grandma, a pleased light brightening her eyes, "I don't believe anybody's called me Polly in twenty years. As for that boy, Edward, I like him. He's got manners—not that manners are

everything, but they cover a multitude of sins. And he looks you straight in the eye. If his eyes had been shiny I'd never have consented to take him in. But about the best thing about him is his legs. He walks like a soldier."

"Yes," laughed the doctor, "his legs seem to be all right; though I wish he were ten pounds heavier."

"We'll have to fat him up," commented Grandma. "His being here will make more work for Charman, but she says she can stand it. Say, Edward" (lowering her voice), "have you seen that high-flyer that Jim Bennett took to the church sociable?"

The doctor laughed again; but his reply was interrupted by the opening door, and a small boy entered hurriedly.

"It's Jamie Oldham," said Grandma. "You tell your mother that he hasn't come yet; or were you wanting something else?"

"I want the doctor," panted the little boy. "The baby's got an awful stomach ache and Mummy says the automobile and sent me running. She said to tell you the baby's black in the face already, and for you to hurry."

"Like as not Susy Oldham's been feeding it mince pie," commented Grandma, as the doctor hurried away. "It's a wonder she's raised any of her children. I suppose Edward will come back for that young man soon as he's turned the baby upside down and given Susy a good talking. I wonder which room the boy will take. It doesn't seem polite, somehow, to put him in the ell."

The "boy" was standing in the ell at that very moment, exclaiming at the beauty of a big four-posted bed.

"Yes, it's wonderful," said Charman, touching the carved posts lovingly. "My great-grandfather slept on it. Later it was put in the guest room, and when black walnut came into fashion it was banished to the servants' quarters."

"Delightful quarters for the humble," smiled the young man. "I think I'll choose this room if it's as convenient for you."

"It will be more convenient. It's smaller to care for, and easier to sweep because of the hardwood floor. That Turkish carpet in the east room is gorgeous, but it's a sight of work to clean!"

"Look here!" said the doctor suddenly. "I won't have you cleaning for me. I'll have time enough at first, anyway, to take care of my own domain. I'm a dandy sweeper, and can make a bed as expertly as a trained nurse. Just try me!"

Charman laughed.

"What would Grandma say?" She thinks it's rightful to even offer you this room where she used to keep her hired girl. But I think it's a lovely room with its quaint dormers. Just see the view from this window. Isn't the river adorable from here? When I was a little girl I used to pretend it was a silver ribbon, put there by the fairies. I remember confiding my fancy to Jimmy Bennett, and he laughed. I didn't forgive him for years and years!"

"No wonder!" responded John Carter with instant understanding. "Who is he? I'd like to smash his face for you!"

"You needn't bother," laughed Charman. "In fact, I wouldn't have hurt him for worlds. Jim is the rising young man of our community, as you will soon learn; and at present is setting the town agog by running after a green hat."

(To Be Continued.)

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Back in 1700, the foundations of industrial medicine were laid when a doctor wrote a book of 48 chapters on "Diseases of Artificers and Tradesmen."

Minard's Will Kill Corns.

Russia Erecting New Mausoleum For Lenin

Elaborate Ceremonies Will Mark
Dedication In October

Behind a great wooden fence, in front of Moscow's famous Kremlin, entirely screened from public view, hundreds of Soviet workmen are busily engaged in erecting a new mausoleum for the late Vladimir Ilich Lenin, "Father of Bolshevism," who died in the last six years.

On this site is soon to rise a finer and more enduring mausoleum of granite and marble to house the frail figure of the great revolutionary leader. While these operations are in progress, the embalmed remains of Lenin have been transferred to a special mortuary chamber in the Kremlin, where the coffin is guarded day and night by armed red soldiers.

On the ceiling, under which Lenin will repose in a large, hermetically sealed glass case, will be an armorial ensign of the Soviet Union. Lenin will be garbed in a simple khaki suit of semi-military cut, as at present, and the full length of his body, bearing the order of the "Red Banner" will be exposed to view.

Construction of the new mausoleum is progressing rapidly. It will be completed by October, 1930, when the thirtieth anniversary of the October, 1917, revolution will be celebrated. The most elaborate ceremonies will mark the dedication.

So SKINNY Ashamed in
Bathing Suit Gained 15 lbs

Witch Larders and Wines, These
wonder gain 5 to 15 lbs. in 3 weeks
like magic. Nerves, constipation
disappear. Get Endless
Yeast tablets from druggist today.

Little Helps For This Week

"Let your speech be always with
grace, seasoned with salt, that you
may know how ye ought to answer
every man."—Colossians iv. 6.

Govern the lips

As they were palace doors, the king
within;
Tranquil and fair and courteous he
all words
Which from that presence win.

—Edward Arnold.

Wear your velvet within; show
yourselves amiable to those, above all,
who live with you.—Joseph Joubert.

He who governs his tongue is perfectly
able to control all his passions.
—William Ellery Channing.

Will Cut Illiteracy

An active program will be inaugurated
within the next two weeks to
reduce the number of people in the
United States who cannot read or
write before the census takers come
in the spring. The object is to show
illiteracy so reduced that the nation
will not feel humiliation when its figures
are compared with those of England,
Germany, Switzerland, Norway,
Denmark, Japan and other countries
that now lead in this respect.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather
which Canadians experience during
February and March is extremely
hard on babies and young children.
Conditions make it necessary for the
parents to keep them confined to the
house, whose rooms may be over-
heated or badly ventilated. The little
ones catch cold and their whole system
becomes racked. To guard
against this a box of Baby's Own
Tablets should be kept in the home
and an occasional dose given the
baby to keep him fit, or if a cold suddenly
grips him to restore him to
health again and keep him in good
condition till the brighter, warmer
days come along again.

Baby's Own Tablets are just what
the mother needs for her little ones.
They are a mild but thorough laxative
which regulate the bowels,
sweeten the stomach; break up
colds and simple fevers; banish
constipation and indigestion and make
the cutting of teeth easy. The Tablets
are sold by medicine dealers or
by mail at 25c a box from The Dr.
Williams' Medicine Co., Brockville,
Ont.

Just as we were converted by the
open-window campaign our next-door
neighbor bought a radio.

Needless Suffering

The next time a headache makes
you stay at home—

Or some other ache or pain
prevents your keeping an engagement—

Remember Aspirin! For there is
scarcely any sort of pain it cannot
relieve, and relieve promptly.

These tablets give real relief, or
millions would not continue to take
them. They are quite harmless, or
the medical profession would not
constantly prescribe them.

Don't be a martyr to unnecessary
pain. To colds that make you
easily be checked; neuritis, neuralgia;
to those pains peculiar to
women; or any suffering for which
Aspirin is such an effective
aid.

You need not hesitate to take
Aspirin. It is safe. It is always
the same. It never depresses the
heart, so use it as often as needed,
but the cause of any pain can be
treated only by a doctor.

Sporting Notes

When the open season for hockey returns there are several local important events to be decided, on the ice—one of these is the challenge the Miller aggregation has issued to the World in general and more particularly to those stick-handlers who reside west of the 5th. This challenge was treated lightly at first; but the opinion now is held that the team headed by John P Miller will make any opposing aggregation realise they will have to play plenty hockey to win.

Another game (if played) which will cause some merriment is the proposed contest between Stony's Champs, of 20 years ago and the best the present generation can produce. It is expressly stated that kicking and biting will be barred while contestants are on the ice.

Pecowski—Warner

In Edmonton, Wed., Feb. 19, Miss Lily Warner (daughter of Mr and Mrs Jas Warner, Stony Plain) was united in marriage to Mr Fred Pecowski, of Blueberry, by the Provincial Registrar. The wedding celebration took place the following evening, at the home of Mr and Mrs Wes Hubbel, on the Baseline, when feasting and dancing was participated in by the wide circle of friends of the contracting parties.

Inga M.D. Election

At Inga Municipal election on Saturday all the Councilors were re elected.

Div. 2—Fred H Kreye beat J A Young by about 10 votes.
Div. 3—Geo Akin beat C W Ibsen by a very small majority.

Div. 5—R C Howat had a majority of about 100 over A Tyrkalo.

Card of Thanks.

I take this opportunity of thanking all the ratepayers in Div. 5 of Inga M. D. for their loyal support at the recent election for Councillor; and during my term of office I will endeavor, to the best of my ability, to further the interests of the whole Municipality. ROBERT C. HOWAT.

Duffield Doings.

There was some little excitement here at the Municipal election on Sat. last in Div. 3 Mr Ibsen's friends rallied to his aid and did yeoman service, giving Mr Akin, the sitting Councillor, a very close run.

The local W.I. held its regular monthly meeting Friday last at the home of Mrs Coats. A feature of the meeting was the entertaining of husbands of members and their friends. A tempting lunch was served.

Hot Dawgs, Mebebe.

The fire brigade had a run Tuesday to the sausage kitchen in the rear of Deneer's butchershop where some meat had taken fire. Except for the loss of the meat there was very little damage done.—Leduc Representative.

Calendar.

FEBRUARY—
28—Dance, Holborn Hall. Martin's orchestra
28—Dance, Muir Lake Community Hall
MARCH—
17—Pete Baron's Sale.

Church Services.

Services in St Philip's Church next Sunday, 11.30 a.m.
United Church service every Sunday Evg. at 7.30.

Special Musical Service next Sunday at 7.30 in Glory Hills Baptist Church. Rev Fred W Benke, Pastor.

During March, English Lutheran services in Stony Plain will be held March 9th and 23rd.

The New Royal Cafe

Last week the deal was put thru whereby Mr L M Larson becomes the new proprietor of the Royal Cafe. Mr Larson, has had wide experience in catering to the public, and will no doubt be well patronised by those wishing a first class meal.

When the projected improvements to the Cafe are completed, including a new ice cream parlor, mahogany booths, an orchestra, banquet hall, etc., this well known Cafe will be brought right up to the best City standard.

Holborn Happenings.

The informal dance to be given in the hall tomorrow night by Martin's band should prove a good drawing card.

General regret is felt here at the removal from this district of Mr and Mrs L M Larson and family. Their friends to a large number met at their home last evening, to bid them farewell. Mr Larson was presented with an easy chair and Mrs Larson was given a suitable present, as tokens of the high esteem in which this worthy couple is held by those in the district. Mr and Mrs Larson carry with them to their new home the hearty good wishes of all.

Hansen's Corners.

Julius Clausen has the contract for building a house for Mr Pete Miller.

Mr and Mrs Geo Clausen were guests, on Sunday, with Mr and Mrs H L Stirling.

Mr Dougal McDonald had a load of 12 hogs in to town last week, all going select.

"Big Dan" would not accept the nomination as Councillor at the recent meeting.

Mr F Wilkin has 1400 logs ready to be sawed.

"Big Jim" has changed his mind about going to Banff and now favors a trip to the Coast.

Mr M E McEwan is back in our district again, and expects to put a big truck on the road, to haul the farmer's grain next fall.

If all goes well, we may expect to hear the wedding bells ringing in this district pretty soon.

Mr Julius Clausen has sold his steam engine to Mr Kreye. After the hectic election campaign, the contestants are thinking of calling a Peace Conference to end war.

The president of the L.A. says every two years is often enough to have the men distracted with a big municipal election.

It is reported that coal deposits in Central British Columbia at Telkwa and Copper River, recently discovered, amount to 400,000,000 tons of bituminous coal.

Arne Pailson, national librarian of Iceland, the oldest surviving democracy where the thousandth anniversary of the first Parliament in the world will be held next June, arrived at Saint John on board S.S. Minnedosa, recently, with a view to visiting Canadian Icelanders. A Canadian Pacific ship will carry visitors to the great world gathering in Iceland.

A special train, a University on Wheels, is operating from Moose Jaw early in February and ending at Saskatoon March 15. It consists of two seed cleaning cars with lecture car and is bringing to farmers in out-of-the-way districts in the west the very latest in agricultural methods. The lecture car is in charge of officials of the Field Crops Branch of the Saskatchewan Department of Agriculture. The train is travelling over Canadian Pacific lines, with which company the department is co-operating.

Entries continue to pour into Victoria for the second annual Empress Hotel midwinter golf tournament over scenic Colwood course, February 17-22, for the W. Beauty Trophy and a long list of silver cups. With the new Club House at Colwood almost open shortly, a heavy entry list is expected for this popular tourney which is attracting golfers from all over the United States and Canada.

The Quebec Winter Sports Association has decided to hang up cash awards for the winners of the ice canoe race slated to be held February 23. Canoeists will leave Levis with their ice canoes, make their way across the River St. Lawrence to Quebec, take a bus aboard under the shadow of historic Chateau Frontenac, and then negotiate the half-mile stretch that separates the two cities.

"By careful selection of the character of colonists we can place in Canada we help in the development of the Dominion," Col J. S. Dennis, former chief commissioner of Colonization and Development, Canadian Pacific Railway, and now acting in an advisory capacity to the department, said on sailing from Saint John recently on a trip of inspection to Great Britain and Europe. He will discuss certain agreements between the British Government and the C. P. R. regarding movement and placing of British colonists in Canada.

Canadians drink nearly 160 per cent. more milk than they did in 1921. The per capita consumption is about one pint per day, or 470.3 pounds per year, compared with about one-half pint per head of population in 1921. The milk consumption in the United States is about 458 pounds per capita per year or less than a pint per day per person. Canadians eat more butter than the people of any other country in the world—23.31 pounds per capita per annum—an increase from 25.79 pounds since 1921. Their appetite for ice cream has increased from 5.26 pints in 1921 to 7.04 pints in 1928, and the per capita consumption of cheese has risen from 2.51 pounds in 1921 to 3.51 pounds in 1928.
